walue.

The small deterioration shown by corn during August makes the percentage figure compare better with the ten-year average than the August 1 showing, and raises the estimate on the crop accordingly. The good weather of the past week comes into the reckoning, also, to increase the promise of a 3,000,000 bushel yield. The betterment in the spring wheat percentage operates correspondingly to restaudy:

ence on a marks with reference to the course of spot values in the South, So terment in the spring wheat percentage operates correspondingly to restore the indication for the crop for that cereal. The showing was reveived listlessly by the stock market. The time money market was called easier to-day, but there was no important change in quotations.

Bonds were steady. Total sales, par value, \$1,065,000.

U. S. bonds were unchanged on call.

Total sales to-day, 248,200 shares.

Total sales to-day, 248,200 shaves,

COTTON MARKETS.

New York, September 5.—The cotton market was nervous and very irregular to-day with business only moderately active, and he closs rieady at a net advance of 5 moints on September, but 7@10 points lower in later months. The opening was steady at an advance of 10 points on September and of 163 points on later positions in response to steady laverpool cables, reports if a better foreneous pot demand and continued apprehensions regarding the course of the West Indian storm. But the raily rom the low point of the previous day appeared to have reflected the covering of the more timid short linterest, so that there was

te the Continent, 49,674 bales; to Japan, 990 bales.

New Orleans, La., September S.—Cotton—Spot cotton quiet, 4c. lower; middling, 134c. Sales on the spot 74 bales and 690 to arrive. Cotton futures opened steady at a decline of 122 points. Cables were not up to expectations and bears were inclined to be asgressive over the absence of any weather disturbance near the Gulf coast, such as was feared might be seen this morning as the result of the movements of the tropical storm reported off Porto Rice yesterday. Little or no attention was paid to the ginners' report of the season from the Census Bureau, issued just before the market opened. The report said that 338.54 bales of cotton had been ginned up to September against 23,422 up to the same time inst year, and 40,229 two years ago. The details of the census report showed that Texas was the source of overwhelming percentage of the cotton ginned up to the later of september, and bulls put in the claim that this was entirely due to premature opening of bulls. Leading bears, however, were not disposed to relinquish their grip on the market, and at the highest level scattered seiling orders were freely around the ring, with the result that at noon the most active months were 10 points under yesterday's final quotations. In the afterneous was teady at an et decline of 29 in points. Futures closed steady: September, 12.81; January, 12.85; March, 12.99; May, 13.10.

MISCELLANEOUS MARKETS.

DRY GOODS MARKET.

New York, September 8.—More general orders were received during the day on finished cotton goods, the business coming principally from Southern and Western Points. Gray cottons are easier in the primary division. Some large orders have been placed for dreas goods drightams, and a steadler business is being booked on prints. Raw silk is being bought more freely, and the improvement in the demand for silk goods was continued.

CHICAGO GRAIN MARKET,
Chicago, Ill., September 2.—Almost to a man, Chicago speculators to-day expected the government crop report to show an increase in the spring wheat yield as compared with the estimate last month. In consequence there was profit-taking and liquidation on a large scale in the belief that the Federal figures would have a bearlah effect on prices. Last sakes were at the same level as last night to ½6%c, below corn finished with a gain of ½6%c, and oats at a loss of ½6% to %c. Heg products made an irregular close, varying from 30.

Advance to 12%c, decline, Varying from 30.

considering the quality of the grades offered. Itetail trade is quiet and collections slow."

CENSUS BUREAU REPORT.

Cotton Ginned to September Amounted

good attendance from the city. Reservations for rooms at the Southern Seminary continue to come in by every mail. A number of changes and improvements have been made this year in order to accommodate the increased number of pupils.

Note of the second and vicinity:

Trade Report.

Bradstreet's Saturday will say for Richmond and vicinity:

Trade conditions generally are fair and in wholesale circles a more optimistic feeling is apparent. However, in some lines a duliness is noted. Dry, goods are more active than recently reported. Wholesalers of shees and rubber goods continue to report good sales. Lumber dealers and manufacturers of chewing tobacco and circles are continue active.

"Trunk and bag manufacturers considered and forwarders of coal report slow movement in the East on account of high prices. Drugs and chemicals are active. Building operations continue unusually active for this season of the year. Reports of the cotton cybare encouraging. Tobacco is being marketed in North Carolina at fair prices.
